## What makes a good teacher?

- One of the most important attributes of a good teacher is to be a good communicator. He should feel comfortable explaining things and enjoy doing the same.
- At times, a teacher might feel like yelling or shouting at students, but a good teacher is one who knows how to keep his temper under control and act calmly in such situations.
- A good sense of humor is another great tool that helps a teacher to simplify his task. Wit and humor, when applied in the proper manner, can form an important part of a successful teaching program.
- A good teacher must have good time management skills and always value the importance of time. In

fact, wise utilization of time is the hallmark of a good teacher.

- A teacher should always adopt a fair attitude, when it comes to making any form of evaluations. He should be fair to his profession and assess students on their performance, instead of personal likings.
- A good teacher should have the necessary command over the subject matter he teaches. This way, he can be comfortable while explaining things. Besides, he will be equipped with

answers of any possible questions that might crop up during the lecture sessions.

- A teacher should be dedicated to his work. He should not kill his time in the classroom and wait for the school bell to ring. Instead, taking out time and engaging in after-school meetings and activities is what suits him.

- A good teacher should be a good leader and a good friend. He should also be a disciplinarian and the students must look up to him. However, this should not stop him from acting like an ally under certain situations.

## Quotations about teaching and teachers

In teaching you cannot see the fruit of a day's work. It is invisible and remains so, maybe for twenty years.

Teaching is the profession that teaches all the other professions.

The best teacher is the one who suggests rather than dogmatizes, and inspires his listener with the wish to teach himself.

A teacher's purpose is not to create students in his own image, but to develop students who can create their own image.

What the teacher is, is more important than what he teaches.

Teaching should be full of ideas instead of stuffed with facts.

A teacher is a compass that activates the magnets of

curiosity, knowledge, and wisdom in the pupils.

Teachers who inspire know that teaching is like cultivating a garden, and those who would have nothing to do with thorns must never attempt to gather flowers.

The best teachers teach from the heart, not from the book.

## A good teacher is a good actor?

Qualities of a good teacher are often discussed by teachers who are striving to be successful in teaching and to develop professionally. There is a variety of ideas and opinions. One of them is that a good teacher should be an actor. What do you think of this?

Hi,

I am Murali Nair and teaching English language in India. I feel that there is nothing wrong in doing a little acting while teaching language. But acting also must be sincere and apt to the situation.

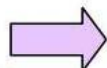

I have chosen the profession of teacher because it is the best profession in the world. It carries light of knowledges and understanding. I think it would be wise to imitate some teachers of our ZPC. They can perfectly combine things that can't be combined: understanding and strictness, merriment and seriousness, etc. Sometimes it looks like a sort of acting. Why not? It helped me to make my mind why I should study here.

With warm regards

### English “Intellect”

It was a sunny day. It was the 12<sup>th</sup> of September. So what? But for many students of our Zaporizhzhia pedagogical college it was the day of knowledge. The “Intellect” competition was being held that Saturday. The most interesting discipline, I think, was English. Maybe because I won the third place in it, or because the competition didn’t disappoint me. I thought it would be hard, but I was mistaken. The command exercises were the first round. I had fun when my friend and I tried to understand nice faces on the cards and connect them with

Dear readers of  
**4YOU newspaper!**

My name is Serhiy Todorash. I am one of the participants of this year’s competition in English – “Intellect”. It took place on the 12<sup>th</sup> of September. I won the fourth or fifth place, but I was very glad that I took part in this competition. It was very interesting, useful for me and my language skills.

P.S. Take part in it and show that you know English.

serious proverbs. We made many interesting and absurd expressions. Then we worked separately. All of us forgot all information about the USA, Canada and Great Britain when the next competition about these countries came. It was funny to know the colours of the British flag, when it was on the wall. But most of all I liked the interview with a famous American actor starred in “Doctor House”. The first time I didn’t understand his speech. I didn’t know why people in TV were laughing. But the second time I understood his interesting story about his biography. I hadn’t seen and heard American English actors without

Ukrainian translation by that time. I think you will enjoy any story about famous people if you hear it.

To cut a long story short I would like to say that the English competition was the first in my life. So I think you must try to find yourselves in this interesting subject. And don’t miss next “Intellect”!

### My impressions of the intellectual game

I want to tell you a few words about the events, that happened on the 12<sup>th</sup> of September, 2009. There was a competition between the students of the 1<sup>st</sup> year. We had to do some exercises in English and answer the questions and do some tests and tasks. It was very interesting.

The most difficult task was to answer the questions about Great Britain, Canada and Australia. But the most interesting task was listening and watching the interview with my favorite actor who starred in “Doctor House”.

So I won the 1<sup>st</sup> place because of my excellent knowledge. I am a very clever girl!

Then “Debiut” competition was held.

I like to play piano, so I played my own composition and my friends said that it was wonderful. My friends helped me. They made my nails and hair, and make-up! Thanks to them.

I hope that in the nearest future we will have something interesting like these competitions.

### The best profession under the sun

My name is Karina. I am a student of Zaporizhzhia pedagogical college. College is the place where I am happy to go to. I had many places to choose, but I'd chosen this college because a teacher is an important and necessary profession. A good teacher teaches children not only to write and read, but to discover this world, a good teacher helps children to develop their own views on life. Children meet their teacher with happiness and love in eyes, sometimes they can entrust him their secrets. Teacher influences children's future very much ..
